

Minors @ Hofstra

* Psych majors may be especially interested in the [Neuroscience Minor](#) and the [Cognitive Science Minor](#) *

Follow the links below to learn more about each of the different minors you could choose to complement your psychology major. This list is a work in progress -- new minors will be added, and some may be phased out over time. Most minors involve 18 semester hours, but the exact requirements vary. The best place to learn more about each minor is to visit the department in which it is housed. To officially declare a [Neuroscience minor](#), contact Dr. Keith Shafritz:

keith.shafritz@hofstra.edu. For all other minors, contact the chair of the department to sign a ["Change of Study Form."](#)

Once you declare the minor, it will appear on your DAR. Unfortunately, there's no way to run a "what if" for minors.

Accounting	African Studies	American Studies	Anthropology
Arabic	Art History	Asian Studies	Astronomy
Biochemistry	Biology	Chemistry	Chinese Studies
Chinese	Classics	Cognitive Science	Community Health
